ii. Executive Summary of the Annual PHA Plan

HASLO continues its attempts to be a housing resource for the entire County not just the City of San Luis Obispo. In that role we work with our affiliate non-profit to provide housing from transitional housing for the homeless to first-time homebuyer homeowner assistance. In recent years through our partnerships with the San Luis Obispo Supportive Housing Consortium and the County's Department of Social Services we have instituted tenant-based rental assistance programs which have filled a huge void in delivering assistance to the homeless and to those in extreme need. We feel we do an excellent job given the limited amount of funding available and the bureaucracy established by both Congress and the U.S. Department of Housing and Urban Development.

Based upon the information contained in the Consolidated Plan/s applicable to the jurisdiction, and/or other data available to the PHA, provide a statement of the housing needs in the jurisdiction by completing the following table. In the "Overall" Needs column, provide the estimated number of renter families that have housing needs. For the remaining characteristics, rate the impact of that factor on the housing needs for each family type, from 1 to 5, with 1 being "no impact" and 5 being "severe impact." Use N/A to indicate that no information is available upon which the PHA can make this assessment.

C. Strategy for Addressing Needs

Because of the lack of resources and the difficulty of the local housing market the PHA has to rely on a combination of the following in addressing the housing needs for the next year: 1) Additional Section 8 Vouchers; 2) Increased lease-up; 3) Turnover of existing owned units; and 4) Development of additional units. We have a total of 55 units awaiting tax credit or Section 501(c)(3) approval via the Section 8 Project Based program. These units could be brought on line within 12-18 months if tax-credits were available or if HUD would provide adequate housing payment standards to meet the local market. We chose this strategy because there is little else we can do in the existing marketplace..

(1) Strategies

ATTACHMENT A

Admissions Policy for Deconcentration

The Housing Authority of the City of San Luis Obispo has considered adopting a policy as to the above but for reasons it feels are relevant has decided no specific policy is needed. Those reasons surround three major factors that are listed as follows:

1. The Housing Authority has no concentration of housing units. All units of the Authority are scattered site developments in fourteen different locations within the City of San Luis Obispo. Only five of those sites contain as many as 20 units and one of those five sites houses senior citizens.
2. According to the County of San Luis Obispo's adopted Year 2000 Consolidated Plan there are only four census tracts in the county where racial and ethnic concentrations exist and just six census tracts where over 51% of the residents have incomes below 80% of the county's median income.
3. Our present policies and resulting resident patterns are free of development impacts from racial or ethnic minorities and have similar income distributions that produce an average PUM dwelling rental in excess of \$325. As to racial characteristics just one of our developments, that an eight unit development, has 50% Hispanic occupancy. But that's just four of eight families. Thus a change in occupancy by just one family would lower the Hispanic population to 37.5% of the available units. In our four largest family developments we have white populations ranging from 40 to 50% of the total number of units. That leaves little room for ghettoization by any one-minority group.
4. The situation with incomes produces similar results. As of July 6, 2000 the average incomes in our four largest family units ranges from a low of \$15,762.30 to \$20,348.39. That's less than a \$4,600 spread amongst the developments. It's also interesting to note that the other two developments have average family incomes of \$16,005.25 and \$16,386.90. That means three of the four developments have average incomes within \$700 of each other. It is pretty hard to conceive that artificial manipulation of the occupancy could produce a better result.

We feel that our developments are racially and economically balanced. We monitor racial balances on a regular basis, however, given the above results we see absolutely no reason to expend man-hours on a complicated economic policy that at best would produce the results we are already getting.

Section 2: PHDEP Plan Goals and Budget

A. PHDEP Plan Summary

The broad goals of our program are simply self-sufficiency and self-esteem through education and doing. We try to provide our residents, both young and old, with the tools they will need to be successful in our society. Whether that be the ability to speak English, or the ability to operate a computer, or the ability to do well in academic areas. Our partners are chiefly volunteers from California Polytechnic State University at San Luis Obispo, or Cal Poly as we know it locally. They come as individual volunteers, work-study students, and students from organizations including sororties and fraternities. We evaluate the success of our program via the success of our participants whether it be graduation from Cal Poly, our local junior college, or the City’s High School, or in simple achievements such as staying off of drugs, increasing self-esteem, and other successes in life.
